

## **Practical 6: Create Digital Identity – LinkedIn**

### **Aim**

To create and modify digital identity using LinkedIn.

### **Objectives**

- To create professional online profile
- To update personal information

### **Materials Required**

- LinkedIn account

### **Procedure**

#### **Create LinkedIn profile**

Sign up on LinkedIn using your email and set up a new profile.

This gives you access to professional networking and career-building tools.

#### **Add photo, bio, education**

Upload a clear professional photo and write a short bio summarizing who you are.

Enter your educational details to complete your basic profile information.

#### **Add skills**

Use the “Skills” section to list your technical and soft skills.

Adding relevant skills increases your visibility and strengthens your profile.

#### **Create a simple post**

Click “Start a Post” and write a short, meaningful update or introduction.

Share it publicly to begin engaging with your professional network.

#### **Change privacy settings**

Go to **Settings & Privacy** to adjust what others can see on your profile.

Modify visibility, contact preferences, and data-sharing options as needed.

My Learning Journey in Digital Literacy

Learning digital literacy has been an exciting and meaningful journey. I have gained confidence in using digital tools, learned how to search for information safely, and understood the importance of online privacy. This journey has improved my communication skills and made me more responsible in my technology use. Digital literacy is not just about using devices; it is about learning to use them wisely in everyday life.
